Together Educating the Nation									

Leading from the Front

Out of a total of **51 695** matriculates who wrote the 2010 Grade12 Examination **29 382** passed, representing an overall provincial performance of **56.8%** compared to **47.9%** obtained in 2009. This represents an improvement of **8,9%**. **22 313** learners did not make the grade. This high number of learners not coming through is highly regrettable.

However, to you learners who did not make it, all is not lost. The Department will indeed offer you support as you rise and pick yourselves up. Among you are those who qualify for supplementary examinations. The Department will provide tuition and exam preparation support to all these candidates with effect from the 15 January 2011. We urge all qualifying learners to take full advantage of the opportunity to attend these support classes.

To those who completely did not make the grade, you shall be afforded a second chance. You are urged to please take full advantage of this opportunity. Schools are also urged to afford second chances and assistance to these learners. We are not content with just more than half of our candidates going through.

In 2011, the Department will intensify its effort to support schools, educators and learners to improve the quality of education provision in Mpumalanga Province.

Processes are underway to finalize our Schooling Transformation and Reform Strategy, (STARS), to ensure that we can intervene and improve performance across the system.

The STARS will focus on:

- Provision of quality Early Childhood Development
- Strategy for Improving Literacy and Numeracy
- Improvement of Mathematics and Science Teaching and Learning
- Eradication of Dysfunctional Schools or Turning Around Low Performing Schools
- Improvement of overall Matric Performance

We will hereafter consult with all our stakeholders on our proposals for transforming schooling in our Province.

This consultation will culminate with the Education Indaba in the month of March 2011.

I attribute this improvement of the result to the collective working together that prevailed in the Province last year.

2010 saw almost every person showing practical interest in matters pertaining to education, thus making education a true societal issue ■

Dial-a-Tutor

The Mpumalanga Department of Education is implementing a Dial-a-Tutor Programme to assist learners who may experience difficulties with their studies while at home.

Learners can dial the departmental toll free line, **0800 203 116** between **18h00 - 20h00, Monday to Thursday**, to be linked with a subject specialist who will give guidance on the spot.

The re-opening of schools in Mpumalanga commenced without hassles on 12 January 2011.

MEC Mhaule with e-tv's Cathy Mhlahlane

Almost all schools were ready to start with teaching and learning. This was attributed to the timeous delivery of required resources by the Department.

This included the delivery of Learner and Teacher Support Material, supply of Top Up textbooks, extended the contracts of all Temporary Educators until the end of January 2011 as well as the smooth running of the scholar transport programme.

The Department was also satisfied with the attendance of educators, none teaching staff and learners on the first week of school re-opening.

It was good to see educators back at school with dedication, zeal and keen to start with teaching and learning.

What was inspiring was the fact that the year started on a positive note with the Department having improved its Grade 12 results by 8.9% following a flawless examination process.

In this regard, the MEC for Education, Mrs Reginah Mhaule expressed her appreciation to all stakeholders and officials who played a role.

Obviously, there were few setbacks that needed to be attended to. These included delays in finalising some schools infrastructure projects. The continuous heavy rainfall stalled the processes which were put in place. However, the processes are closely monitored by the Department.

There were also some delays in the admission of learners in few areas and officials were there to assist them.

Overall one can say without any contradiction that the 2011 school year started on a promising note for the Department.

As things stand there are positive prospects for quality education delivery in the Province for 2011.

The MEC has already spelled out the target which is **10%** across the board. It is good to know this early because every one would find it easy to reach or work beyond this envisaged target.

If what was achieved last year is any thing to go by, surely there are signs that working together we can do more. It will be prudent that we remain focused, united and work around the clock to excel further.

The Province does not deserve to be in the last ladder of learner performance other wise the proverbial saying that the wise men came from the East will be of no meaning.

Let us work side by side, smart and faster to reach our collective objective.

The MEC has already spelled out what needs to be done going forward to further improve the results. She articulated these during the announcement of the 2010 grade 12 results:

- The examination results will be rigorously analysed in order to inform the system of where interventions need to take place and momentum cannot be lost
- We will continue to intervene in schools that are underperforming or have shown a decline in their percentage pass rate.
- Learners in Grade 1-6 will write the Annual National Assessment in February 2011.
- The Department will assist learners who will write Supplementary Examinations by providing classes which will commence on 15 February 2011.

This assistance will be extended to learners who will be writing the Qedibanga Examinations in May/June 2011. The Catch Up Programmes implemented last year will be intensified in 2011 as it is clear that they are yielding positive results. The Department will also implement the following interventions:

- Provision of quality Early Childhood Development
- Strategy for improving Literacy and Numeracy
- Improvement of Mathematics and Science teaching and learning
- Eradication of Dysfunctional Schools or Turning Around Low Performing Schools
- Improvement of Overall Matric Performance
- Of significance would be to ensure that the community at large actively participates in matters pertaining to Education. Making Education a Societal issue.

All said and done let's take this time to welcome educators, none teaching staff, learners and parents back in schools and wish them the best in all their endeavours ■

Inkosi Sipho Mahlangu, HOD Mahlasedi Mhlabane, Mr Thomas Khosa (Principal) and MEC Reginah Mhaule

Awarding Excellence in Grade 12 Results

SADTU Provincial Chairperson, Mr Solwako Mahlangu, the MEC for Education, Mrs Mhaule with Bonginkosi Manzini, who got 100% for both Maths and Physics

Accelerating excellence in education delivery has been put in practice as top achieving learners were given accolades for their excellence with regards to their grade 12 examination achievements.

The top ten learners, top learners per subject, top ten schools, best achieving Circuit and District were awarded at an occasion held at Sikhwahlane Secondary School in the Nkomazi Municipality, Ehlanzeni District on 17 January 2011.

Sikhwahlane Secondary School is located in one of the poorest neighbourhood in the Province but did not use the socio-economic background as a justification for failure. The school was chosen to host the awards ceremony because it is the most improved quintal one school in the country following the 2010 Grade 12 results. The school improved its pass rate from **71.1 %** in 2009 to **97, 7 %** in the 2010 Grade 12 results.

The MEC for Education, Mrs Reginah Mhaule said, "Once more, our gratitude goes to all individuals and organisations who made this possible, our beloved educators, parents, learners and stakeholders alike, without you this would have been a mission impossible.

Let us continue to rally side by side and make Mpumalanga a shining Province.
We must all make a commitment to improve the results by 10% this year and make an effort to achieve it.

The 2010 results must motivate us to want to do more and working together we can achieve this objective (i.e. improving the results by 10% in all grades). The learners and schools that we will be awarding honour this morning have really burned the midnight oil, sacrificed negative habits, tendencies and life styles that that may compromise time dedicated to study."

The top learners who were awarded accolades all received laptops, printers, laptop bags courtesy of Bhp Billiton. On top of these they also got trophies and merit certificates for their feat.

SASOL pledged to donate Seven Thousand Rands to each learner who passed Mathematics and Physical Science outstandingly. There are five learners who obtained 100% in Mathematics and Five who obtained 100 % in Physical Science in the Province, all these learners would share a donation totaling R70 000 from SASOL.

Bonginkosi Mnisi from Makhosana Manzini High School n Bohlabela District has obtained 100% in both Mathematics and Physics and took home R14 000, a computer and a laptop made possible by Hima Copy Sentrum/Laptitude.

Robert Gumede Family Foundation-Scholarship Programme pledged to give 20 learners full scholarships. The beneficiaries of these scholarships will be categorised in accordance with municipal boundaries. Two (2) beneficiaries will be from Umjindi Municipality, 8 from Nkomazi Municipality and 10 from Mbombela Municipality ■

ANA Implementation Programme:

Learners from grade 2 to 7 in all South African Public Schools will write the Annual National Assessments(ANA) on Literacy (Grade 2- 4) , Languages (English or Afrikaans) grades (5- 7), Numeracy (Grade 2 – 4) and Mathematics (Grade 5 – 7).

A selected few schools with grade 10 will write assessments on Languages (English or Afrikaans) and Mathematics.

ANA will be written in February 2011 according to the following time-table.

LEARNING AREA	GRADE	DATE	DAY OF WEEK	TIME
Numeracy	2 & 3	09-02- 2011	Wednesday	9:00 – 10:00
	4	08-02-2011	Tuesday	9:00 – 9:45
Literacy	2 & 3	11-02-2011	Friday	9:00- 10:00
	4		Thursday	9:00 – 9:45
Mathematics	5 & 6	09- 02 - 2011	Wednesday	9:00 – 10:00
	7	08- 02 - 2011	Tuesday	9:00 – 10:00
	10	08 - 02 -2011	Tuesday	9:00 – 11:30
Languages	5 & 6	11 – 02 -2011	Friday	9:00 – 10:00
	7	10 - 02 –2011	Thursday	9:00 – 10:00
	10	10 -02 - 2011	Thursday	9:00 – 11:00

The overall objectives are:

- To provide the Department of Basic Education with important information that may help to identify areas where its urgent attention is required to help improve learning success of learners.
- Assist Provinces, through Districts, to make informed decisions about which schools require urgent attention terms of providing necessary resources to improve learner performance in these subjects/learning areas.
- Provide teachers with essential data about the baseline literacy/language numeracy/mathematics capabilities of learners at the beginning of each grade and thereby help them make informed decisions when planning the year's programme.
- Inform individual teachers about how close or far they are to or from realizing the target goals they seek to attain through their teaching and inspire them to realign their teaching strategies towards accomplishing such goals.
- Inform government and the South African community as to how well the schools are serving the country's children where it matters most, namely, the attainment of functional literacy and numeracy skills that will enable them to study successfully in all subjects and to compete equitably on the open global job- market later.
- Provide reliable data for policy decisions related to provision and support required at various levels of the system.
- Measure the performance of the South African schooling system against the Millennium Development Goals.

All schools are urged to manage this programme with highest levels of professionalism and efficiency.

For more information in this regard contact Mr. Evans Zwane at (013) 766 5808 or p.zwane@education.mpu.gov.za

Supplementary Examinations

The Department urges all candidates who wrote the National Senior Certificate (NSC) examinations in 2010 and who meet the requirements to qualify for supplementary exams, to register as soon as possible at their schools or centres where they sat for their final examinations on or before 24 January 2011. Learners should consider the opportunity to improve on their performance in particular subjects or to have a chance to rewrite subjects that they failed in the NSC examinations of 2010. Learners who are eligible to write supplementary examinations are those who meet the minimum promotion and certification requirements in the final examination but need two subjects to obtain their national senior certificate.

The 2010 Statement of Results that they received at school on Thursday 06 January 2011 will indicate whether or not they are eligible to register to write the supplementary examinations.

Other candidates who are eligible to write include the following:

- Those who can prove that they were medically unfit to sit one or more of their final examinations;
- Those who can provide documentary proof of a death in their immediate family, or other special reasons for their absence;
- Those that can provide documentary evidence that they qualified for admission to a higher education institution but were one requirement short of satisfying the requirements;
- Those that can provide the head of the assessment body with a written report from their school principal on reasons other than illness or injury that rendered them unable to write one or more of their examinations; or
- Those who were waiting the finalisation of an investigation into an irregularity.

These learners should register at the District or Regional office serving their school before 24 January 2011. Candidates could also use the option of applying to have their exam scripts remarked at a cost of R70 or rechecked for R12. They can also view their examination scripts at a cost of R150 ■

2011 National Senior Certificate (NSC) Supplementary Examination Timetable

WEEK 0	09:00	14:00
Thursday 10/02	Computer Application Speed Test (Optional) at 8:00	Must still form part of monitoring plan so that very good monitoring takes place

CONCLUSION OF THE 2011 NSC SUPPLEMENTARY EXAMINATION: 24 March 2011

Support Classes to Learners

The Department has established Saturday Centres to support learners who will be writing Supplementary Examinations as well as those who will write the May/June 2011 Examinations.

Learners are urged to register to attend Saturday Classes in these centres. Registration should be done in their former schools and the principal must thereafter submit the list of learners as well as their subject choices to the Centre Managers.

Rhandza Xikolo Xa Wena Campaign

The Department of Education in collaboration with ABSA, ICT Works, COSAS and other stakeholders have launched the Rhandza Xikolo Xa Wena Campaign in an endeavour to encourage communities to be involved in ensuring that schools are conducive for teaching and learning.

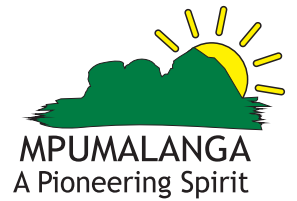

This campaign involves the painting of schools, planting food and flower gardens, planting trees and fixing broken school furniture.

Communities can contact their nearest departmental circuit offices on how to get involved in this noble endeavour.

Together Accelerating Education Delivery.

education
DEPARTMENT: EDUCATION
MPUMALANGA PROVINCE

Education Delivery Agreement

Outcome One

Improved Quality of Basic Education

Outputs of outcome one:

- Improve the quality of teaching and learning
- Undertake regular assessment to track progress
- Improve early childhood development and
- Ensure a credible outcomes-focused planning and accountability system

Outcome Five

A Skilled and Capable Workforce to Support an Inclusive Growth Plan.

Outputs of outcome five:

- Establish a credible institutional mechanism for skills planning
- Increase access to programmes leading to intermediate and high level learning and
- Increase access to occupationally-directed programmes in needed areas and thereby expand the availability of intermediate level skills (with a special focus on artisan skills).
